March 1, 1889.

I hereby certify that the foregoing is a true and correct statement of the Treasury of the town of Rumney.

C. A. CHASE, *Treasurer.*

March 1, 1889.

I hereby certify that I have examined the foregoing accounts and find them correctly cast and properly vouched.

C. W. HERBERT, *Auditor.*

SCHOOL REPORT.

REPORT OF THE BOARD OF EDUCATION FOR THE YEAR 1888-'89.

To the citizens of the Town of Rumney:—

It again becomes my duty for the third time to present you with a report of schools for the Board of Education for the past year.

We have been fairly successful in getting suitable teachers, and in some instances we have considered ourselves more than successful having procured teachers far beyond their pay and such as the town should feel pleased to retain.

We have thought best to continue the school in district No. 6 in order to give the larger and more advanced scholars a greater opportunity to finish their course or prepare to go elsewhere to advance themselves in preparation for teachers or other walks of life. This, we believe, has met the approbation not only of scholars, but of parents and citizens in general.

We have thought it advisable to have a fall term of school in district No. 1 to give the few scholars there an opportunity, not otherwise well provided for, as most were young and unable to go the distance to attend school in districts 2 or 7 during fall or winter terms.

Much might be said upon the subject of teaching, manner and discipline of schools, and also the duty of parents, which I shall in most part pass over.

It is a subject of serious consideration that people, and especially parents, will vote and raise money for education,

build school houses, hire teachers, and apparently willing to be to almost any expense necessary for education and then keep, or permit scholars to stay at home one-fourth, one-half or three-fourths the time, having no reasonable excuse whatever.

It takes but little experience to know, or but little metaphysics of mind to comprehend that in this way a child has no ambition to learn and he is always behind his class, an annoyance to teacher and a clog to those scholars who improve their time.

A teacher who loves learning and takes pleasure in imparting it to the diligent scholar, gets tired and vexed at the laggards who are here and there at school, not to learn but to recreate.

Citizens, and more especially, parents, and all lovers of education, make the most of the money you raise by keeping your children at school, thereby getting the benefits of your labor, and confer a blessing upon your children that will live and be cherished through all time, and leave a school register that will be a pleasure to look upon rather than a besmeared and spotted disgrace.

Whole number of different pupils registered	247
Average number belonging to the schools	184
Average daily attendance	151
Number of children between 5 and 15 as taken by the selectmen, April 1888; boys girls total	
Whole number of weeks of school (not including the school now keeping and the term of 16 weeks in district 1)	200
Average number of weeks for each school	25

C. W. HEBBEET, for School Board.

E. H. SIMPSON, C. A. CHASE, C. W. HERBERT. } School Board.
